Walmart Student Deals In the Past

Walmart+ Student

Walmart+ Student was a discounted Walmart+ membership. Qualifying students got 50% off a monthly or annual plan. This was a limited time offer and is no longer available.

Walmart+ Membership: Has anyone had trouble getting the student discount?

I go to the: https://www.walmart.com/plus/student and then there is nothing on that page to take you to verifying as a student. You can only sign up as a regular member or with Walmart+ Assist which is only for customers who use government assistance. I even tried clicking that and there is no drop down for student. I spent an hour on the phone with Walmart and they couldn't help me.

Maybe it's just not currently available in my state (Pennsylvania) and the representative didn't know that?

I had the same problem, so I called Walmart customer service. They couldn't figure it out either. We were both confused because Walmart still has information on the student discount in their FAQ but there's no way to get to the signup page. The service rep said they most likely stopped offering the student discount :(
